Hi Rick,

Not a problem. 2020 numbers are updated and as follows:

Staffing Level	2020
Superintendents	10
Chiefs	2

With regards to the management names and contact info, the request was generic and only asked for the "current supervisor/manager details." As this was ambiguous, we only provided basic details as names and individual contact info per manager was not specified. What specifically is required by the term "details?"

Hi Pieter, please provide the following:

1 - Hamilton Airport Port of Entry: They mention they have 8 superintendents and 2 chiefs for 2018/2019. However, the information must be current to this day as well as there were no names or contact information given for any of these individuals. This was part of the request. If the port could provide this information along with the information in the email on a separate page, it would be greatly appreciated.

Thanks,
 Rick

Good morning Cristiana.

The Hamilton Port of Entry still have not provided the names or contact information of the individuals currently working at the port. Again, this was a part of the request and must be provided. Can you please go back to them and provide the information requested?

Thanks so much.

Hi Cristiana.

So, I have imported all the records provided. However, there are some issues that require further information:

1 - Hamilton Airport Port of Entry: They mention they have 8 superintendents and 2 chiefs for 2018/2019. However, the information must be current to this day as well as there were no names or contact information given for any of these individuals. This was part of the request. If the port could provide this information along with the information in the email on a separate page, it would be greatly appreciated.

2 – BBTCA: Can you confirm if the Superintendents and the Chief have direct phone numbers or is there just the one main one? If they have individual phone numbers/fax numbers/email addresses, those all must be provided. Please provide on a separate page to the email please.

Thanks!
Nana
